The Paul Revere Saga: Chapter Seven

(This is the seventh in a series of articles dealing with the problems that have plagued the Paul Revere Condominiums off Grafton Street since the project first came before the Millbury Planning Board in 1983.)

By Andree A. Belisle

MILLBURY - As the Planning Board's October 17, 1983 public hearing on the Paul Revere Condominium special permit request continued, Town Planner William Keegan reported on a water pressure test conducted by Robinson & Fox, a division of Boston Surveying Co. (BSC) on the previous Friday. Present for that test, in addition to Keegan, were Ray Dubois, representing the Oakwood Heights Water District, and Frank DiPietro, Senior engineer for BSC.

[The following quotations are taken from minutes of the Planning Board meeting as taken by then secretary Mary Clark. Planning Board members present for the hearing were: Jim Fitzpatrick, Chairman; Phil Dumas, Mary Anne Dube, Donald Markey, and Paul Aubrey. Also present were Town Planner William Keegan; former Town Planner Robert Weitz, and Attorney Albert Conte, representing the Citizens Condo Committee. Present to represent Forrow Builders were Attorney Paul Revere O'Connell and Marc Donohoe, of Perkins Engineering.)

"Mr. W. Keegan stated that there was a two and a half inch opening, 109 lbs. of static pressure per gallon flow, residual pressure. Mr. W. Keegan stated that he spoke with Chief Nault and the Chief stated that there is not sufficient water pressure for fire protection in this development. Also, he stated that test results do not comply. He stated that four unit structures should have 1400-2100 gallons per minutes, according to the regulations of the National Fire Code. Mr. W. Keegan stated that the Fire Chief had spoken to him at 7:30 this evening, and the hydrant flow to buildings between 31 ft. and 100 ft. apart should be at least 750 gallons per minute. The hydrant tested near the proposed condominium tested at 712 gallons per minute, and the Fire Chief was concerned about this. The Fire Chief also stated that he would like to see nine hydrants instead of six."

Turn to CONDO on Page 5

Congratulations, Dr. Belisle!

Proving that you are never too old to make your parents feel proud, Dr. Belisle is flanked by his parents, Arthur and Vivienne, at the University of Rhode Island campus.

Alexander G. Belisle, publisher of the Millbury-Sutton Chronicle, received his Ph.D. in English in ceremonies at the University of Rhode Island on May 26th. This announcement will come as a BIG surprise to Dr. Belisle, but the editor is allowed some liberties!

Scholarships Awarded

MILLBURY - The Millbury Women's Club awarded scholarships to four Millbury High School Seniors on Awards night, May 29. Dorothea Molleur, President of the Club, presented four scholarships of $500 each to the following seniors: Brian Tift, Kerrie Murawski, Philip Carpenter, and Barry Bacon.

A $500 scholarship also went to Christine Croteau, a senior at St. Mary's High School in Worcester.

Parsekian Receives Award

MILLBURY - Jennifer Parsekian, of 10A Woodland Street, was recently awarded "The Most Improved Business Student Award" by Paul Revere Insurance Company. She was presented with a certificate and a Paul Revere silver bowl.

Each year a business student is presented the award by Paul Revere based on the following criteria: 1. a willingness to assume additional responsibility; 2. a scholastic average of at least a "b"; 3 a positive attitude; 4. demonstrated commitment to quality work; 4. involvement in extra curricular activities.

According to business teacher Donna Saucier, Jennifer worked very hard maintaining a B average in her course. "Whenever there was an extra assignment to be done," Saucier said, "Jennifer always volunteered her services."

Besides helping with the school newspaper, Jennifer was a member of the Millbury High School Business Club and held a part-time job at State Mutual Life Assurance Company as a word processor.

Recent Graduates

Kathleen Murray, of Millbury, was among the recent graduates of Southeastern Massachusetts University in North Dartmouth. She received a Bachelor of Science degree in marketing.

Lori Gardner, of 113 Millbury Avenue, graduated cum laude from Stonehill College on May 19. She received a Bachelor of Arts degree, and majored in English with a concentration in Journalism. She plans on pursuing a career in journalism.

Ann C. Brady, of 129 West Main Street, Millbury, recently received a Master's Degree in Business Administration from Clark College. She was a 1985 summa cum laude graduate of Assumption College.

Veterans Appreciation Fund

MILLBURY - Contributions are now being accepted for a fund honoring Millbury veterans who served in the Gulf during the Desert Shield/Storm operation. Plaques from the citizens of Millbury will be presented to these veterans, or family members, during a ceremony on the common after the June 30 parade.

To contribute, make checks payable to the Millbury Lions Club-Veterans Fund, and mail to the Veterans' Agent at the Millbury Town Hall or to Millbury Lions Club, P.O. Box 385, Millbury, MA 01527. Excess funds will be used for veterans activities.

'Best Business Student'

MILLBURY - Jennifer D. Lavoie, of 122 Elm Street, recently received "The Best Business Student" Award sponsored by State Mutual Life Assurance Company. She was presented with a cross pen and a certificate. This award is presented annually by State Mutual. The award is based on academic excellence in the area of business.

Jennifer maintained an A-B average throughout her junior and senior years in all her business courses. She was also a member of the High School's Business Club, and is employed at Engineered Assemblies and Components, Corp. in Sutton.

Community Citizen Award

UXBRIDGE - The Uxbridge Grange presented its 1991 "Community Citizen Award" to Representative Richard T. Moore (D-Uxbridge) during ceremonies on May 28. Moore was selected in recognition of his leadership in the development of the Blackstone River and Canal Heritage State Park and the Blackstone River Valley National Heritage Corridor.

A letter was read from Congressman Joseph D. Early (D-3rd MA) which said, "Your (Moore's) public service has been marked by a deep and vigorous commitment to the advancement of the Blackstone Valley. You have set a fine example of dedication to the cause of your community's betterment."

Car Wash

MILLBURY - A car wash sponsored by the Millbury Super Park Committee will be held on June 15 from 9 a.m. to 1 p.m. at 146 Supply Center on Route 146. The cost will be $3 for cars and $5 for vans or trucks. All donations will be used for the proposed "Woolie World" playground. Anyone interested in volunteering for the car wash can contact Janice Morin at 865-5652. Rain date, June 22.

Charity Golf Tournament

OXFORD - Senator Matt Amorello (R-Grafton) will sponsor a charity golf tournament at Pine Ridge Country Club in Oxford on June 4. All proceeds will be donated to the Vietnam Veterans' Memorial Trust, Inc., which is raising funds to build a memorial at Green Hill Park. In addition to golf, the event will feature contests, raffles, prizes, and a prime rib dinner. A new car will be given to anyone who makes a hole-in-one on the fourth hole.

The day will begin at 10:30 a.m. with coffee and donuts. Players will tee off at 11:00 a.m. A cocktail hour will be held from 5-6 p.m., followed by a prime rib dinner.

Tickets are $75 per person. Contact Thom McCabe at 366-1244 if you are interested in participating.

A Day at the FED

MILLBURY - The Millbury High School Business Club recently spent "A Day at the FED." Donna Saucier, business teacher and club advisor, was awarded a $200 grant by the Blackstone Valley Chamber of Commerce. The grant was used for transportation to and from the Federal Reserve Bank in Boston.

According to Saucier, all project goals were accomplished: 1. An overview of the operations of the Federal Reserve. 2. A tour of the facilities. 3. An opportunity to see the FED in operation.

The students also learned about the relationship between the Federal Reserve Bank, other banks, the government, and its affect on monetary policy. The item that most impressed the students, according to Saucier, was the "money room." Students saw workers checking through approximately $1M worth of $20 bills for ripped and worn bills to be taken out of circulation.

Millbury Selectmen's Meeting Digest

Clarification Sought on Personnel Board's Authority

By Edward J. Cooney

MILLBURY - The May 28 Selectmen's meeting began promptly at 7 p.m. Administrative Assistant Earl Chase reported that he received an update on the Town's estimated local aid which now shows a reduction of $317,250, as opposed to the previous estimates showing a reduction of $144,000.

"The town of Millbury and other small towns must have got it tucked to them," Cristo said. "I think we should write to our state rep. and senator, suggesting that we be treated a little more fairly." The board voted unanimously to fax a letter out tomorrow.

Cristo said the town has come out on the short end as a result of how the legislature redesigned the local aid formula. "It was obviously designed for someone else," he said, "someone made out. It may be fine in Boston, but not here."

Cristo asked how much time would be needed as lead time for a special town meeting to deal with the changes in local aid. Chase said, three weeks.

Selectman Bernard Plante suggested that town budgets not be addressed until the Senate passes the budget.

Police Business

The board approved Police Chief Ron Stokowski's request to approve a change in the effective date for the Keg Tag policy from June 1 to June 15 as well as an increase in the time to retain the tagged kegs from a 15 day limit to a 60 day limit.

Insurance Coverage

A dozen or so individuals were present to express concerns relative to changes in options for medical insurance coverage. Most of those in attendance were retirees. Elizabeth Maloney, acting as spokeswoman for the retirees, said the reason the group was not listed on the agenda for tonight's meeting was that they did not get their notices from the Town on a change in insurance carriers until Saturday.

Cristo said the board would be speaking with the town's insurance advisor to see what options are available. It was noted that the enrollment period for HMO's has been extended to August.

Linda Larriviere, a Millbury teacher, said the late notification that Blue Cross/Blue Shield may drop Millbury has made it impossible to organize people who would be affected. She also said that many towns do not have the required 20% enrollment in Blue Cross/Blue Shield.

Cristo said Chase indicated that the town is 40 people short of the needed 20%. "Obviously," he said, "a very small number of our total employees and retirees are on the Blue Cross plan. Over the years, people have been jumping to the other plans, and that is what our problem is now. They (Blue Cross/Blue Shield) have been threatening us with it the past several years, and I think we have had meetings with you over this. I don't think any one has believed us until right now. This is imminent, Blue Cross has told our consultant they are going to cancel us. Believe me," Cristo said, "there is no effort on our part to get rid of Blue Cross - it's on their part."

Maloney said, "You must realize that the town will never have any more Blue Cross members as long as the town pays 100% to HMO's. That is the downfall of Blue Cross/Blue Shield. We've tried for two years to amend the law, not in dollar amounts, but percentage amounts. I don't mind paying my percentage as long as someone else in an HMO is paying the same percentage," she said. "Then you would find more people going to Blue Cross/Blue Shield. I attended a meeting with Blue Cross and HMO's. The HMO's themselves admitted the HMO's are not good for retirees, because retirees like to travel, they like to have summer homes, they like to have winter homes. HMO's don't cover them. That was told to us by HMO's."

Maloney also said there is a legal point to consider as some people have paid premiums to Blue Cross/Blue Shield for 40-50 years and now would have nothing to show for it. "I think Blue Cross/Blue Shield could be legally held to provide for insurance," she said.

Personnel Board

The Selectmen met with Personnel Board members to discuss policies related to pay raises. Personnel Board Chairman Kevin Barrett noted that his board's area of authority excludes elected officials and school department employees. He said a discussion has been going on over whether or not the Personnel Board has the authority to set, approve, or disapprove raises. Barrett said that, in the past, the Finance Committee would come through with recommendations and the Personnel Board would say yes, no, or offer different percentages. "That's past practice," he said.

Barrett said the personnel board was seeking the selectmen's support to continue past practices. He referred to a letter from the town's labor counsel, John S. Chinian of the law firm of Mirick, O'Connell, DeMallie & Lougee, regarding the Personnel Board's authority.

The letter read, in part, "Generally, the specific pay rate to be paid to a particular non-elected town employee or official is set by the town's executive branch, not the legislative branch, subject to the availability of funds. As I understand it, the practice in the town of Millbury is to have such pay rates, including salaries, paid to specific employees, set by the personnel board. While not free from all doubt, it appears the Personnel Board does have the authority pursuant to Chapter 41, Sect. 108A and the Town's Personnel Bylaw, to act in accordance with the practice which has been developed in the Town of the Personnel Board setting the pay rates for specific employees, so long as such pay rates are within the pay schedule and, if steps are included within each pay grade, at steps approved by Town Meeting."

Chase said the last sentence in the paragraph refers to a pay schedule, with steps included in each pay grade approved at town meeting. He said that was not accepted at a town meeting.

Selectman Donald Gauthier agreed, noting that was the Classification Plan that town meeting did not accept.

Barrett said he was referring to percentage recommendations from the Finance Committee last year which the Personnel Board approved, disapproved and re-allocated, based on merit.

Gauthier said he has a problem with that as the Finance Committee is not authorized to set percentages. "They are taking authority which is not their's," he said. "There should be a recommendation from the Personnel Board first before raises are adopted."

Barrett again said his board was seeking the selectmen's support for past practice.

Town Planner Dave Hulseberg said that, with regard to past practice, he received a 6% raise last year at Town Meeting, not through the personnel board.

Lachance said he could not vote on the request tonight as he thought the issues were vague.

SELECTMEN from Page 3

Cristo said that what is needed is a comprehensive plan.

Personnel Board member Michael Ragaini said, "We are working on putting it all together. Some town officials come to us for a raise. We say no. They then say, 'That's not your responsibility anyway.' We went to town counsel and we feel he agrees with us." Ragaini also said a couple of raises have already been granted that are questionable. He said people go around the personnel board if it will be to their benefit.

Gauthier said he did not agree with Town Counsel on some of his points as he thought counsel was not addressing the personnel Board's question.

It was suggested by Cristo that labor counsel come in to discuss the issue.

Barrett said, by definition in the bylaw, the appointing authority would have the authority to evaluate and propose raises to the Personnel Board for approval or disapproval, based on past practice.

Bleau said that was fine as far as non-union personnel, but it was another issue when you relate it to elected officials.

Barrett said that past practice has a legal basis. Again he asked for the board's support.

Cristo asked the board if they wanted to make a decision. "I know what I want," he said, " I don't know about the rest of the board."

Lachance suggested that the matter be tabled.

Barrett said he didn't understand what questions remained.

Cristo said there is no agreement on what town counsel is talking about.

Hulseberg said the Personnel Board should write down which past practices they are talking about. He said there was no need for town counsel to come in as the town has already spent $300 for a letter.

Bleau, too, asked for more information on past practices.

Plante said the selectmen are not in agreement over labor counsel's letter.

"We agree with it," Ragaini said.

"No one else seems to," Plante remarked.

"That's why we are appearing before you tonight," Ragaini said. "We're not the ones that are bringing up the questions. The questions are being brought up by others. I think the letter is clear, but obviously you people have some reservations about it. The question is, do we have the authority or do we not have the authority before we go further on anything else. If, in fact, you think we don't, that's the bottom line. It's a simple question."

Cristo again said he was ready to vote, "but apparently no one else is."

Bleau said it has to be clarified where the authority comes from, chapter 41A or the town bylaw.

Barrett said his board will get a letter back to the board concerning past practice. The boards agreed to meet again in two weeks.

Special Town Meeting

The board then met with Town Treasurer Dave Cofske to discuss the need for a special town meeting to deal with an additional $208,000 cut in local aid. Cristo suggested a tentative date of June 25 for the town meeting since the board doesn't want to wait until after July 1 when the town will already have spent 1/12 of the budget.

Bleau asked if it would be beyond the realm of reality to come up with an additional $208,000.

"Let me tell you this," Cofske replied. "When I spoke to the Finance Committee this year, I told them I was not in agreement with covering some of the shortfalls in this year's budget, because, whether you know it or not, we went through, this year, $1.8 million in free cash. I don't believe we will get much more than a million dollars this year. We are going to start off $800,000 in the hole. I told them that," he said. "I told them we should bleed a little bit each year so we won't have this humongous problem which I think we are going to face next year. We've left ourselves in poor bargaining position when it comes to salaries. Next year you're going to have a hard time convincing anyone, if you start off $800,000 in the hole. Whatever cuts that are to come," Cofske said, "we should go into those budgets and cut them. Maybe hold a meeting in June, estimate the cuts which you've already done, and let's just go cut it (budget)."

Cristo said cuts will have to come out of budgets as most warrant articles are funded out of the stabilization account.

Cofske noted that every time the town has done "creative financing" to save jobs, "it says, do it next year. Do it (make the cuts) now and get it over with," he said.

The board voted a tentative date of June 25 for a special town meeting.

Miscellaneous

- Cristo asked that a letter of thanks be sent to Juvenile Court Judge Luis Perez who met with the board and discussed issues relating to the vandalism at the town cemeteries. He said the judge indicated that the town can sue the parents in a civil suit for monetary damages. "It's an option we have now or in the future," Cristo said.

- The board voted to grant permits to the Sewerage Commissioners to allow street openings for test pits for sewerage line installation under Phase IV, Area 8-8A along Wheelock Avenue.

Open House to Honor Audrey Hoyt

MILLBURY - The Millbury Public Library Trustees, Administration, and Staff invite the public to an open house in memory of their long time friend and much-missed former employee, Audrey Hoyt. The event will take place June 12, at 7:30 p.m. at the Library.

Audrey Hoyt worked for the library for 15 years before her death this past March. Upon her death, her family requested that in lieu of flowers, donations be made to the Millbury Public Library. As a result, the library established the Audrey Hoyt Memorial Fund. At the suggestion of the Hoyt family, three paintings by noted local artist Michael Graves were purchased in Hoyt's memory. These paintings will be presented on the evening of June 12.

CONDOS from Page 1

Marc Donohoe, of Perkins Engineering, said that 500 gallons per minute would be more than adequate for this project. He also said he would like the Board to "look at this like any subdivision."

Anthony Mangano, Braney Road, questioned where the problem arises.

"Mr. W. Keegan stated that it meets minimum flow for hydrants, but for this type of structure, it does not meet the standards.

"Mr. D. Markey questioned how close it comes.

"Mr. W. Keegan stated that, according to Fire Code, it should be 1400-2100, and it is only 712 gallons.

"Mr. W. Keegan stated that the engineers from Robinson-Fox would endorse this water flow as adequate."

Bob Hall, Braney Road, asked what impact the condominiums would have on the water pressure.

"Mr. W. Keegan stated that it is on an automatic pumping system. Also stated that 8 inch pipe should be run throughout the project. There would be adequate pumping to maintain the water."

Alec Belisle, Grafton Street, said there is one point on the water line on Grafton St. that is only a six inch line.

Donohoe agreed that it would be better if there was an eight inch line all the way through.

"Mr. J. Fitzpatrick questioned what the Board members wished to do as the Fire Chief has recommended that there is insufficient water flow."

Keegan asked if a pumping station could be put in.

"Mr. Conte stated that he did not want to see a decision made against the recommendation of the Fire Chief.

"Mr. R. Weitz stated that the minimum of 500 gallons per minute applied only to the buildings that were thirteen feet apart. This amount decreases per gallon per minute. However, according to the minimum safety standards, this is insufficient.

"Mr. J. Fitzpatrick stated that the information received tonight in a telephone conversation between Fire Chief Nault and Mr. W. Keegan indicates that the standards do not apply. Mr. J. Fitzpatrick stated that a few weeks ago, when the Fire Chief was talking to the members of the Board at the Planning Board meeting, he stated that the fire truck has water on it also which gives additional water."

Raymond Guerin remarked that there is a big difference between water pressure and water flow.

Donohoe said flow and pressure are related. "He stated that we are really dealing with volume. He stated that there is a way that you can get more (water). He has seen some cases where the developer is required to put in a pond with a dry hydrant. The Fire Department can hook up 500 gallons from the hydrant and 500 gallons from the fire pond. They could find a pond that would meet all the requirements. Marc Donoghue (Donohoe) stated that it is between the engineers and the fire chief. They can supply a fire pond that would be a water source, not only for the development, but for the whole area.

"Mr. Conte stated that it is the Fire Chief's recommendation, according to the fire standards.

"Mr. J. Fitzpatrick stated that we do have some places in Millbury where dry hydrants are installed, and that dry hydrants are part of the last condominium project."

Dumas said he felt a dry hydrant with a retention pond would be sufficient. "This would also solve the problem of flow in an emergency or fire," he said.

Alan Tuttle, Grafton Street, said he has been in the insurance business for several years and has not seen too many dry hydrants. He said there would not be much of a reduction in insurance. "Generally, he does not recommend these as a solution. He does not feel they are cost effective."

Fitzpatrick questioned whether there would be a guarantee that they would have a sufficient amount of water available at all times of the year.

Donohoe said the requirements were, "500 gallons a minute for two hours on a year-round basis. He also said they could also install a water vault instead of a pond."

Weitz said a standpipe could be established as a form of supply.

Fitzpatrick said he would like to ask the Fire Chief if this would be a reasonable alternative.

John Dryden, Grafton Street, said he feels the area is too dry. "He does not feel that this would be feasible."

Aubrey said he would like to refer the matter to the Fire Chief.

O'Connell said that, in view of the fact that this issue was brought before the board tonight before the start of the meeting, he would like to have the meeting adjourn to October 20 for further research.

Tom Fox, of Highland Ave., then asked to make a few comments. "He stated that he certainly understands the position that the Board is in. He stated that it is difficult to understand and comprehend what happens under zoning bylaws, but that he feels the issue here tonight is the intent of the zoning bylaws. He stated that the intent is the issuance of a Special Permit for 130 condominiums, and unless there are feelings expressed by other people in this town 'that this permit should be denied.' The only intent he has heard here tonight is that the people do not want this, and they are the people who live in the neighborhood. Mr. Fox asked that the Board vote on the density issue tonight. He stated that he feels that the density is the real issue and the Board is waiting for the other

Power Plant Task Force Interim Report

John Mathews, Chair of the Power Plant Task Force, and members John Connor and Richard Woehlke reviewed an interim report, copies of which are available in the Library. The report includes the findings and recommendations of the Technical sub-committee. A final report will be issued within a year.

The report states that Sutton will probably not be exempt from power plant siting consideration in the future. In Town Counsel's written opinion, there is a good possibility that the Town of Sutton could lose a court fight for any plant approved by the "Energy Facilities Siting Council" under Massachusetts General Laws, Chapter 164. The latter currently applies to facilities of 100 Megawatts (Mw) or more. However, legislation has been filed to extend the Council's jurisdiction to 75 Mw."

When the report was prepared in April, the New England Power Pool (NEPOOL) estimated demand for new power would occur in the year 2000. Primarily due to the estimated length and depth of the current recession, in May NEPOOL pushed its forecast to 2004 or 2005. In his comments about the change, Woehlke estimated IPP activity would begin about 1998 to 2000, allowing about 4 years for approval and construction. While these numbers are subject to change with the economy, several years are available for the town to adjust its by-laws.

Section 3 of the report identified three sites in Sutton that the task force felt would be acceptable for power plants:
Area north of Central Turnpike and West of Stone School Rd.
Area east of Stone School Rd. and north of Central Turnpike.
Area east of Rt 146 and south of Oakhurst Rd.

Section 4 dealt with Revenue and Taxation. This is a complicated issue involving not only the taxation of the plant itself, but also its effect on surrounding property. It cannot be assumed that a Power Plant would be taxed on its total value. "If the owner of the facility applies for and receives a 'manufacturing' designation from the Department of Revenue," the report states, "the personal property portion of the value would be taxed by and paid to the Commonwealth at an excise rate lower than the Town tax rate."

It was noted that other properties have received the manufacturing designation and do not pay personal property taxes to the Town. Where this has happened, towns have been able to negotiate alternate arrangements to compensate for tax loss.

Section 5 goes into detail about the siting and state and federal environmental requirements, including air quality, water pollution, water supply, wetlands and waterways, solid waste and hazardous waste.

Section 6 outlines permits and approvals required in the Town of Sutton. "Local approvals in Sutton will fall into four categories: 1) zoning and/or site plan review; 2) construction in or near floodplains or wetlands (within 100 feet); 3) sewer connection and pre-treatment; and 4) available water supply.

Section 7 lists three major recommendations to Sutton: 1. Fund an aquifer study; 2. Develop a performance by-law defining the environmental impact and limitations of, among others, noise, oil storage, hazardous materials, water use, hours of operation, energy consumption, emissions, water discharge, fuel type, waste disposal, vehicular traffic and odors; 3. Review the "special permit" granting process.

The board praised the task force for a job well done.

Miscellaneous

- In June, July and August, the Selectmen's regular meetings will be on the first and third Tuesdays. Workshop meetings will be scheduled on other Tuesdays as necessary.

- The Solid Waste Committee is proceeding to do a preliminary design study for the Transfer Station. It is estimated to cost between $5,000 and $6,000.

- It was decided to activate the Budget Task Force in preparation for further revenue cuts at the State level.

Town Administrator's Review

Strieby reviewed the tabulation of the Selectmen's appraisals of Dexter Blois. The review covered his performance as an administrator, his relations with the Board of Selectmen and other boards and Town employees. On a scale of 1 - 5, his average over-all rating was 3.7.

The meeting closed with statements of support for Blois from each Selectman, summarized by Chizy who said, "I think your work is outstanding. The best decision we ever made was to hire Dexter Blois."

Try-outs for Fuller Hamlets

SUTTON - Open try-outs for Fuller Hamlets Premier Soccer Teams will be held at the Bowden Fields between June 17 and June 28 for boys and girls in the U-11 1/2 (born on or after August 1, 1980) through U-16 1/2 (born on or after August 1, 1975) age levels. All teams will enter the National Challenge Cups League (NCCL) and State Championship competition. For specific dates and times, call Ross Weaver at 865-9527, Brenda Jenkins at 865-4782, Bob Boucher at 865-4567, or Martyn Bowden at 865-9094.

From My Window on Farnsworth Court

By "Pastor Rae" Cameron

Offer something free, and this Scotsman will grab for it almost every time. Our local hospitals recently offered us men a free prostate exam, and I took advantage of it. As it has turned out, it's a good thing I did as they did discover a little roughness which called for further examination.

Just six months ago, the exam turned out to be negative, but more recently it showed up positive for cancer. So now, further tests and all kinds of information to be researched, and a second opinion to be sought, and ultimately I will have to decide what I want to do about it.

Many have been lovingly asking, "How do you feel?" There really is nothing physically to "feel" as it's just there. Let me emphasize here, as many others are doing, that any man over 40 should have an annual exam because until it gets too far along this is the only way to detect it.

Now, the psychological, moral, and spiritual dimensions are something else. At first it is frightening to face any illness, but with much research and many supporters who assure that I can be cured, the fear subsides. Then there is the eternal question, "Why?" Have I done something terribly wrong and is this a result of some sin or sins that I have committed? Have I angered God?

Then there comes the spiritual dimension which is the most exciting part. The assurance of so many people that they are praying for you is most uplifting. Prayer chains all over are being alerted to my condition. My many thanks to all of you.

One of my favorite passages to share with someone who is going thru an illness or trial is from Romans 5. It begins with the fact that we are justified by faith and this gives us peace with God thru our Lord Jesus Christ. No matter what may be the sin, our God forgives unless we just bluntly turn Him down and the working of His Holy Spirit within us. Then Paul states that we glory in tribulation as this teaches us to be patient, and that's hard, but this will be an experience in which we hope for the best. The bottom line, however, is that God's love is in our hearts. My own experience is that the love of God is coming to me from so many people of love and concern. God bless you all. Finally, brethren, pray for us. Amen....

CONDOS from Page 5

two issues to be solved. He stated that the Board is acting like the density issue does not exist. Mr. Fox stated that if the vote is favorable tonight, then the meeting could be held on Thursday to decide on the overall special permit request; if the vote was not favorable, there would be no need for a meeting on Thursday.

"Mr. J. Fitzpatrick stated that he feels the Board addressed the density problem and have provided calculations to prove this. He stated that his own feeling is that unless there is a serious difference in their calculations, they must go forward. He repeated that the Board had agreed on the calculations previously presented by the Town Planner and Mr. Markey.

"Mr. D. Markey stated that in all due respect to Mr. Fitzpatrick, if the Planning Board did vote 'no' tonight, they would not have to come back on Thursday. He stated that he did not have a problem with voting tonight.

"Ms. M.A. Dube stated that she did not want to vote tonight.

"Mr. P. Dumas and Mr. P. Aubrey did not want to vote tonight. Mr. P. Aubrey questioned the legality of voting tonight.

"Mr. Fitzpatrick stated in view of the comments by the members, he would prefer not to call for a vote tonight, and suggested that the Planning Board meeting adjourn to Thursday evening.

Dumas moved to adjourn to October 20 at the High School.

Fox then asked that the density issue be added to the list of concerns.

"Mr. R. Weitz stated that one of the things the Board has to vote on is the intent that the permit does not derogate from the bylaw."

Fox again asked that the question of density be added and that a vote be taken on this night.

"Atty. O'Connell stated that the Board and the developer have been discussing this proposal since last spring, and even though so many people are here tonight, much time and work has gone into this, and he would like to ask the Board to wait until Thursday to make a vote.

The board voted unanimously to adjourn to Thursday, October 20.

On **October 20, 1983** the **PLANNING BOARD** met again at Millbury High School due to the number of people in attendance.

Mr. J. Fitzpatrick opened the meeting by introducing Mr. Renwick Chapman, engineer from Boston Surveying Co., the town's consultants.

Anthony Mangano introduced Albert Conte, attorney, representing the Citizens Condominium Committee.

Fitzpatrick summarized the comments regarding the availability of water. "He stated that the two outstanding issues were the figures from the Oakwood Heights Water District and the water supply issue. He stated that density was an issue that the people had suggested again, but that the Board had agreed at Monday's meeting (October 17th) that they did not want to reopen the discussion of that as they felt that their calculations were clearly defined at previous meetings.

"Regarding the water flow, Mr. W. Keegan stated that he had spoken with the Fire Chief, and that the Chief indicated that there could be problems with the water flow. Mr. W. Keegan informed the Fire Chief that the developer had recommended a fire pond. Chief Nault had told Mr. Keegan that the National Safety Code has a lot of standards that they use for multi-family dwellings.

"Mr. W. Keegan stated that he did some research into the Fire Safety Code. Mr. W. Keegan stated that they are guidelines to provide for the ultimate fire protection. 'They are not laws written into stone,' according to Mr. W. Keegan. Mr. W. Keegan further stated that he had contacted several different fire departments in the surrounding towns and most of the towns do not follow the safety standards according to the National Safety Code because they are unable to do so. This is because of the unavailability of public water or poor financial resources to build the water system or failure of the system to provide the pressure as well as volume.

"Mr. W. Keegan explained a formula that many other towns use. He stated that you multiply the room size by the room height (11 cubic feet takes 1 gallon of water to extinguish a fire). 26 ft. x 24 ft. x 7.3 height - 4,555.2 cubic feet of space. Therefore, divided by 100 gallons would be 45 gallons of water to extinguish a fire in a unit that has only one floor; in a unit that has two floors such as this - 90 gallons of water would be needed for each dwelling unit. Four units would require 360 gallons of water.

CONDO from Page 7

"Mr. W. Keegan stated that based on these figures, 712 gallons of water that could be obtained out of the hydrant would be sufficient. He also stated that Millbury has nine pumps, and usually only use two. Mr. Keegan stated that this is a big difference in what was said at the previous meeting. He stated that some of the pumps are turned on manually which adds 900 gallons onto the 712 gallons, which means 1612 gallons of water would be available."

Marc Donohoe, of Perkins Engineering, said he had done some research also. "He indicated that the developer would be happy to supply 60,000 gallons of water, as stated at the previous meeting, either by a fire pond dug in the earth, or a fire pond which would be a closed cistern which would be fed from the drainage water supply.

"Mr. M. Donohoe stated that he felt the closed system would be more appropriate. He stated that they could also have an alarm system when the water has dropped. Mr. W. Keegan also stated that consideration was given to travel time according to IS requirements which is anything over three miles is a risk. The location of the project is only 1.9 miles from the fire station which is under the three mile limit."

Attorney Conte asked Renwick Chapman, Engineer from BSC, if he had any comments.

Chapman said this is an acceptable method in providing a second source of water. "Mr. Chapman stated that the project itself would be safer than other residences. Mr. Chapman further said that it is a common procedure done for manufacturers and suppliers."

Conte questioned the amount of gallons per minute.

Keegan stated that 712 gallons would be sufficient for the project.

Fitzpatrick said the tests were done on the hydrant nearest the project. He also said the proposal would require six hydrants.

"Mr. W. Keegan explained that if there is a fire, the fire lines do not go directly to the fire but go directly to the truck, and then from the truck to the fire. The truck has the capacity of increasing the pressure and the alternative source is the third potential as to what extent hydrants would be used.

"Mr. Conte asked if you get less volume by increasing the pressure from the fire truck.

"Mr. Chapman responded that you increase the pressure.

"Mr. Conte stated that the fire truck does not increase the water.

"Mr. Conte referred to the fact that the guidelines refer to 30 ft. between buildings for minimum fire protection.

"Mr. W. Keegan stated that one building structure would need 360 gallons of water."

Conte asked what time of the day the water testing was done.

Chapman said it was done at 3:30 on Friday afternoon. He also said that, depending on the source, the pumps are regulated to pump a certain amount of pressure.

Conte said the fact that there is a six inch pipe on Grafton St. is a major concern. "He would like to know whether or not this would cause a limitation of the system. Mr. Conte asked what will happen in time to the overall flow rate."

Chapman said there was a problem because of the six inch pipe, but that it was not a major factor.

Conte asked Chapman if there could be a problem in the future. Chapman replied, "if you wanted to make the assumption that nothing was going to be done, you could say there would be a problem in 46-50 years. He stated that you could also make the prediction that the water company would take care of it, and increase the size of the water lines.

"Mr. Alex Belisle questioned the increase of flow if they increase the pumping capacity and how long it would take to get to the pumps and increase the capacity to Grafton Street.

"Mr. Keegan stated that if there is additional need for water, the pumps are turned on. The Fire Chief notifies the water company, and the time is not a factor initially."

Belisle asked if there was someone at the pumping station 24 hours a day.

Keegan said that there is someone on call 24 hours a day.

Donohoe said that, with respect to the six inch line on Grafton St., "he feels that the system could deteriorate without care. It is also possible that the system could improve."

Anthony Mangano asked the Water Commissioners who has the right to say that a fire hydrant would be approved in the Oakwood Heights Water District.

Power Plant Task Force Releases Interim Report

By Lawrence Moore

SUTTON - At 7:35, Chair David Strieby opened the May 28 Selectmen's meeting. Present were members Wally Johnson, Mike Chizy, Mary K. Connor, Rick LaBonte, and Town Administrator Dexter Blois.

Correspondence

A letter of support was received from Richard Norlin, President of the Lake Singletary Watershed Association, supporting the establishment of the Manchaug boat ramp fees. Norlin expressed concern with heavy traffic and boating problems on Singletary, similar to Manchaug.

Senator Amorello wrote to report his follow-up with the DPW about the culvert problems on Putnam Hill Road. He has been assured the work will be completed "in the next few months."

Harvey Bileau has indicated his interest in an appointment to the Recreation Commission.

Veterans Field

The abutters on streets near Veteran's Field have been advised of the planned "No Parking" signs to be erected. The field will be on the agenda of the June 11 selectmen's meeting. LaBonte asked for volunteers to complete the erection of playground equipment. Anyone interest can contact the Recreation Commission at Town Hall.

Budget

Blois has answered "no comment" to inquiries about Sutton's plans to deal with fiscal changes being discussed in the Legislature. He considers all suggestions to be in the "proposal" stage.

Blois asked the Board to take the position, "We don't know what the impact of the numbers will be either on the town or on the schools" until definite figures are available. "There are a lot of 'ifs' between now and when the Governor signs it," he said. Blois has been in touch with Moore and Amorello about town concerns.

Lake Patrols

The Police Department will conduct random patrols on all three town lakes during June and July. Safety checks will be continued, and where appropriate, copies of the "Open Container By-Law" will be distributed.

"When arrangements are complete, enforcement will be aggressive and random so that people will not know when the police are coming," Blois said.

Ramp fees will pay for the enforcement program.

Manchaug Gate

Blois and several of the Selectmen visited the Manchaug gate area over the long week-end. While the new fee system performed much as hoped, a concern arose over the tournament fishing permits granted by the Public Access Board. The permit list shows only one local group, the Happy Hookers from Millbury. Several groups are from Rhode Island.

"It bothers me to see that we are catering to folks from Rhode Island who are not taxpayers in Massachusetts," Blois said. "Why, I don't know. We've got some from Cape Cod, from South Shore, but none from Sutton or Douglas."

LaBonte pointed out that many of these groups have numbers that are going to take up the entire 20 spaces available.

Blois suggested accumulating information for the balance of this year, so as to experience all problems, and, prior to next season, issuing a set of rules and regulations.

Gatekeeper's Report

Bill Mongeau reported totals of 76 payees, 14 non-payees (early arrivals), and 9 fishing derby boats. On Saturday there were 26 beer cans in the receptacle, but from Sunday to Monday there were only 3, reflecting police presence. However, on Tuesday, May 28 at 5 p.m., there were 21 beer cans. "That shows you what's going on down there," he said. "When there's no police protection, the beer cans go sky high."

Johnson asked if people were turned away. Mongeau said no. There were only two complaints, one from a person with a covered trailer who wanted to know "where the Selectmen got off taking over the lake and the ramp". Another person just refused to pay and drove off.

Connor suggested a long range approach to regulation, to which Blois replied, "Since the ponds are in two towns, you'd need a joint by-law." Connor asked him to put something together for the board's review.

CONDOS from Page 8

Commissioner Kenneth Higginbottom stated that he feels "they (the Water Commissioners) have the right to deny or approve it."

Planning Board member Phil Dumas asked, "If a well is put in, does the Oakwood Heights Water District have to supply the water?"

Higginbottom said yes.

Donohoe said the primary source would be on-site water fed from the municipal supply. "If that is not desirable," he said, "they could supply it from a ground water source, or Cronan Brook.

Fitzpatrick said he wanted to discuss a report that Norman Guerin, treasurer of the Oakwood Heights Water District, had presented on the expansion of the system and the business of running the water system.

After some discussion, Paul Morin, of Grafton Street, asked for a clarification of the water issue and if the Water Commissioners were saying that the Water District could deny supplying water to the project.

Fitzpatrick replied that it seems there are conflicts between the Water Commissioners and some residents, "but if the Planning Board grants the Special Permit, water must be supplied before the project can go forward."

Conte said if he understood correctly, the board could issue a conditional special permit.

Fitzpatrick said, "The issue of water is important in order for the project to happen, but that the matter of a decision being made here tonight by the Planning Board will have to be governed by the report that was provided by Mr. Guerin, the Water Commissioners, and that the developer has said they will "up front" funds in order to assure that the requirements of the Water District would be met. He also stated that the comment was made tonight that the Water Commissioners may, or may not, allow the district to expand. Mr. J. Fitzpatrick stated if that happens, the conditions of the availability of water would not be enforced if there was no availability of water.

"Mr. Conte stated that if the decision is made tonight to grant the Special Permit, that this issue should be resolved.

"Mr. J. Fitzpatrick stated that this issue does not need to be resolved tonight.

"Mr. Rene Chapman stated that even if the Oakwood Heights Water District Commissioners voted against expanding the district, that would not be a reason to deny the Special Permit.

"Mr. Conte stated that he would like to clarify the fact that there is a water safety problem as far as volume is concerned.

"Mr. J. Fitzpatrick stated that it is clear that this is a decision that will have to be made between the Water Commissioners and the developer.

"Mr. Conte requested a three minute recess. However, the Board members did not agree.

"Mr. Tuttle questioned the fact that if the Water District denies the expansion of the district, 'are we not discussing an issue that there would be no availability of water?'

"Atty. O'Connell stated that there is water on Grafton St. and they have had discussions with the Water Commissioners and anticipate that the district would allow them to tie in. He also believes that his would still meet the zoning requirements.

"Mr. J. Fitzpatrick read the letter (from the Water Commissioners) dated September 21, 1983, signed by Kenneth Higginbottom, Ray Dubois, and Robert Gravel, stating that there is sufficient water to provide water service to 130 units.

"Mr. D. Markey stated that he would like to move that no further discussion be made on this matter.

"Mr. D. Markey moved that the Planning Board accept the proposal for a Special Permit for the condominium project off of Grafton St. (Paul Revere Townhouses), and that the issues be resolved as agreed upon at the last meeting with the changes that were requested at that time. Mr. P. Dumas seconded.

"Mr. Conte questioned the fact that the plan showed 180 units and now the proposal has been reduced to 130 units.

"Mr. W. Keegan stated that the plan showing 130 units has been in the Planning Board office for several weeks.

Mike O'Connor, of Brenda Drive, said he was concerned with the number of units. "He stated that the Planning Board has control over this, and questioned the fact that the project would not be completed for seven years. His recommendation would be for the Planning Board to approve some of the buildings tonight, and then some more at a later date. He feels that the people would feel better if the Planning Board would only approve 50 units tonight and then have the developer come back in two years and approve the remainder. He would like to have the developer submit a 50 unit proposal instead of the 130 units.

"Atty. O'Connell stated that the conditions placed on Tiffany Townhouses and this condominium proposal were stricter than anywhere else he has ever seen. As a result, the developer has discussed this on a weekly basis with the Town Planner and only if they abide by these conditions can people occupy the buildings.

"Mr. J. Fitzpatrick stated that the Planning Board has discussed this proposal for several months.

"Mr. Alan Tuttle asked that each member comment on the reason for their vote." (No comments were recorded in the minutes.)

On a roll call vote, board members approved the Special Permit to allow the construction of 130 condominium units. The vote was as follows: Fitzpatrick, in favor; Aubrey, in favor; Dube, in favor; Markey, in favor; Dumas, in favor.

(NEXT WEEK: The 25 Conditions to the Special Permit.)

From the Millbury Public Library... Memorable First Lines

1. "My world is geography. It is also my anchorage, my port of call."
2. "It is a truth universally acknowledged, that a single man in possession of a good fortune must be in want of a wife."
3. "Time is not a line but a dimension, like a dimension of space."
4. "My father said he saw him years later playing in a tenth rate commercial league in a textile town in Carolina, wearing shoes and an assumed name."
5. "It was the best of times, it was the worst of times...."
6. "Call me Ishmael. Some years ago - never mind how long precisely - having little or no money in my purse, and nothing particular to interest me on shore, I thought I would sail about a little and see the watery part of the world.
7. "You don't know about me without you having read a book by the name of the Adventures of Tom Sawyer, but that ain't not matter. That book was made by Mr. Mark Twain, and he told the truth mainly."
8. "It was a bright cold day in April, and the clocks were striking thirteen."
9. "To the red country and part of the gray country of Oklahoma, the last rains came gently, and they did not cut the scarred earth."
10. "What can you say about a twenty-five-year-old girl who died?"
11. "Grandfather said: This is the kind of man Boon Hogganbeck was. Hung on the wall, it could have been his epitaph...."
12. "Every third woman you passed on Gold Street in Baran was young, pretty, and pregnant. The men, too, were young, virile, and pregnant with purpose."
13. "Felicitas Maria Taylor was called after the one virgin martyr whose name contained some hope for ordinary human happiness."
14. "We started dying before the snow, and like the snow, we continued to fall."

Students Visit State House

BOSTON - Members of Millbury Memorial Jr.-Sr. High School recently visited the State House during "Kids and Computers '91." Senator Matthew Amorello (R-Grafton) told the students he was very impressed with the computer curriculum being offered at the high school. "I am pleased that Millbury's students have the opportunity to learn about computers and gain actual computer experience as part of their curriculum," he said.

Lip Sync Contest

MILLBURY - The Millbury Youth Center will hold a Lip Sync Contest on June 8 from 12-3 (rain date June 15), outside, in back of the Youth Center. Judges will be selected from the community and cash prizes will be awarded. Admission will be $3.00. Tickets can be purchased in advance at the Youth Center. Hot dogs and soda will be sold.

Volunteer Drivers Needed

SUTTON - The Sutton Council on Aging, through Tri-Valley Elder Services Nutrition Program, plans to add Monday to its nutrition services programming the first Monday after Labor Day. This addition will help those elders living alone to maintain their nutritional needs.

Two volunteer drivers will be needed to deliver meals to home bound elders in the Town of Sutton. A small stipend is offered to volunteers who are willing to help. Volunteers will also be needed to assist the meal site manager in the preparation and service of the noon-time meal at the Senior Center. To volunteer, call Judy Shute or Joanne Medima at The Sutton Council on Aging office, 865-9798.

Committee Plans Barbecue

UXBRIDGE - The 15th Annual Chicken Barbecue sponsored by the Friends of State Rep. Richard T. Moore (D-Uxbridge) will be held July 14, from 1-4 p.m. at Patricks Pavilion, Rts. 16 and 146, Uxbridge. The Moore Committee will meet Tuesday, June 4, at the Uxbridge Polish-American Social Civic Corp. Hall, Mendon Street (Rte. 16) Uxbridge. Anyone interested in helping with the barbecue is invited to attend.
